

Elevation Boutiques MAP Patrol

Option 1: **Basic MAP Patrol** of Amazon, Ebay and Reverb. I will report back to you daily on my findings.

Option 2: **Deluxe MAP Patrol** which would include the following:

1. Make a spreadsheet of all of your dealers and note if they have the ability to live chat on their site (*this will allow me to see if they will haggle prices with me over chat*)
2. Create an account wherever they will let me – this is how a lot of them run promos. (*you see a different site or get different emails as a member*)
3. Check promo codes as they are emailed to me to make sure they do not apply to your brand (*I will actually add product to the cart and enter the coupon code*)
4. I will take the stores that will require monitoring and divide them up as far as how often I check each store according to your need checking each dealer once a month.
5. I will check eBay, Amazon, Reverb daily for violators. I will notify you daily on my findings.
6. At least once a month, I will visit each site to make sure there isn't any funny business there.
7. I can notify you by email each day on what I'm finding. I will send spreadsheets once a month or you can log on to the google drive account and vie them at any point.

The information can be tailored to what you need or how you would like to receive it.

Price Structure

The Basic Patrol = \$400 per month

The Deluxe Patrol = \$600 per month

Thanks!
